### ROSE IS WRITING BOOK AS SORT OF ATONEMENT

Gambler Who Sent Becker to Sing Sing Says He Hasn't Spared Himself.

LAST CHAPTER NOT DONE

State's Star Witness Will Finish It With Result of Gunmen's Trial.

From Bald Jack Rose himself a reporter for THE SUN learned yesterday that in trial of Gyp the Blood, Lefty Louis Dago Frank and Whitey Lewis, to be med at 10:30 o'clock this forenoon, e State's star witness will testify along same general lines of his testimony in e trial of Becker.

Rose told somewhat in detail also about ok he has been writing, "Twenty ears in the Underworld," and said that he book was finished except for the last chapter, which would deal with the trial of the gunmen now under way and which herefore could not be completed until the trial was over.

Rose was positive in his talk with the reporter that he, Webber, Vallon and Schepps by the terms of the stipulations made between them and Mr. Whitman would be released from prison some time

"But of course," Rose said, "the District Attorney has our promise, and it is our common understanding that we'll return at any time to testify in the event of the Court of Appeals granting Becker a new trial or for any other purpose that the State wants us for."

From other sources, however, it was learned yesterday that the prosecution counts on holding the four informants in the West Side prison not only until the completion of the gunmen's trial but until the trial of Jack Sullivan (Jacob Reich), also under indictment for the Rosenthal murder, goes to the jury.

Furthermore it was learned that after the gunmen are disposed of and before the trial of Sullivan District Attorney Whitman will move for the arraignmen and trial of ex-City Chamberlain Charles H. Hyde, under indictment for bribery is a public official since a year ago last

The four gunmen, so their counsel Charles G. F. Wahle, announced after conferring with them in the Tombs, will take the stand in their own defence When this was repeated to Mr. Whitman he expressed pleasure and said he would be delighted to see any one of the gunmen, or all four, on the stand, not only that they might be cross-examined about their guilt or innocence the Rosenthal murder but about their careers previous to the Rosenthal shooting.

A number of persons, whose names vere among the first published in connection with the Rosenthal case, and still others who are friends of Becker. was learned yesterday, have been extremely solicitous to get in touch with William Shapiro, owner of the gray "murder car," since his confession. Shapiro has been sought so frequently in the past week or so that he has appealed to the county officials to have these per sons kept away.

communication with Shapiro is reported to have happened Saturday night, when a friend of the convicted police lieutenant o talk to Shapiro but was turned away

Friends of various prisoners indicted the murder who have a speaking acquaintance with Shapiro are said to have sought to get word to him that he will be generously rewarded if he fails to identify Gyp, Lefty, Whitey and Dago Frank on the stand

In the interview with Jack Rose the reporter repeated to him the story told in THE SUN yesterday of a woman named Lynch, subpognaed by the Becker defence out not called to testify, although it is stated she will testify at the gunmen's trial that Vallon shot Rosenthal and that later she heard Rose say, "We'll put the killing up to Becker

I didn't put the killing up to Becker, began Rose emphatically, "until they closed up every avenue on me and it was vident that I was to be made the victim pay the penalty for Rosenthal's death, nen I put it up to Becker and that was a first statement of the kind I ever

trict Attorney Whitman's approbation of Rose's literary efforts.

Rose would not go into the testimony he will give at the gunmen's trial because of a promise to Mr. Whitman that he would not discuss testimony in advance. He admitted, however, that in a general way his testimony will be the same story he told at Becker's trial.

Rose laughed when a reporter asked him if he had any idea what the story is that Jack Sullivan says some day he will tell, a story that Sullivan says will discredit Rose and make the hair of the Jurors who convicted Becker "stand on end."

"If Sullivan has any story like that up his sleeve," grinned Rose, "he should have told it long ago instead of hanging back so long. He ought to have told it at the Becker trial instead of giving his time then trying so hard to square himself. Let him tell it at the gunmen's trial."

Three Alarms Turned In for Will lamsburg Blaze.

A fire that started in the Meinkoff & Weinstein paper box factory at 411 to 419 Hewes street, Williamsburg, last night spread rapidly and for a time threatened some two story wooden frame dwellings on each side. The firemen got the blaze under control after three alarms had been turned in.

The fire began about 10 o'clock on the second floor of the factory, which is a five story brick building. time then trying so hard to square himself. Let him tell it at the gummen's trial."

Rose said he could throw no light on the attempts which certain persons are accused of making to get in touch with shapiro. He sees Shapiro only during exercise hours, he said, and knows little tabout him or the amount or kind of testimony the chauffeur has given to Mr. Whitman. Mr. Whitman said after spending three hours with Shapiro and other witnesses that he was very much pleased over his talk with all the witnesses, and especially with Shapiro.

Attorney Wahle said that he had not decided which of the four gummen will testify first.

"I understand," the lawyer said, "that the defence has subpenaed Lefty Louie's wife. If either she or Gyp's wife is called they certainly will testify in favor of the defence."

"Do you intend to prove that the four defendants were not on the scene of the murder?" Mr. Wahle was asked.

"Well," he parried, "when our defence is in there will be no question as to where the four young men were at the time."

The four gummen themselves are quoted as saying on Saturday that they can prove that they were not in front of the Metropole when Rosenthal was shot. Mr. Wahle was asked whether or not the surprise promised by the defence was that he would prove that Vallon killed Rosenthal.

The lawyer answered that there would be a general surprise when he puts in the defence, but that Vallon was not of moment in the case one way or another. Rosenthal.

The lawyer answered that there would be a general surprise when he puts in the defence, but that Vallon was not of moment in the case one way or another.

Mr. Whitman said he had no notion what the nature of the "surprise" promised by the defeace was. There seems to be an air of confidence around the District Attorney's office that the State's case against the gunmen cannot be broken down and that it is even stronger than the testimony which convicted Becker.

Mrs. Charles Becker last night confirmed a statement made earlier in the evening by Lawyer Joseph A. Shay that within the next few days an order of substitution will be served on the District Attorney showing that Mr. Shay is the new counsel of record in the Becker case.

"We have new evidence." said Mr. Shay is the new counsel of record in the Becker case.

JOHNSTOWN, Pa.. Nov. 10.—Miss
Gladys Rose, daughter of Mr. and Mrs.
Horace R. Bose and granddaughter of
W. Horace Rose, first Mayor of Johnstown, is not to marry Stewart Hamil, an
attorney of Oakland, Md. Miss Rose, it
is said, received a letter from Hamil
last week that was not intended for
her, but for a young woman in New

Horoughbreds on the farm and can stand
almost any exercise.

Though he still complained of pain
from his wounds, Mr. Stokes was able to
get about and was in his automobile when
on June 30 last the machine hit a little
girl at Sixty-sixth street. This accident,
though it was not serious, affected Mr.
Stokes, and when a short time after he
left for Kentucky, he was dispirited.
He had tried many physicians in this city,
had asked advice about his health from
all sorts of people, yet he found no relief.
One day he was told that there was an
able though by no means famous physician near his Lexington farm, and he
went to that doctor. went to that doctor

According to the story that Mr. Stokes told on his return, the methods used by the Lexington physician were simple

indeed.

The country practitioner passed a pair of scissors through a flame, gave Mr. Stokes an alcohol bath and then inserted the scissors into the wound. Then he opened the scissors and out came a piece of bismuth paste at the end of them. The operation was repeated and there at the end of the scissors was another piece of the paste. The paste is used in x-ray examinations prior to operations to accentuate structures and linings. Too much of it is liable to be poisonous, though as a rule it is harmless.

though as a rule it is harmless.

The Lexington physician told Mr. Stokes that he thought that was what had prevented the wound from healing and had poisoned him, according to the patient's story, and sent him on his way. There was still pain, however, and Mr. Stokes returned.

This time the scissors brought forth a This time the scissors brought form a piece of gauze such as is used in dressing wounds, about the size of the tip of one's index finger, says Mr. Stokes.

Thereupon the wound began to heal and Mr. Stokes to gain weight. In a short time he was riding over his estate.

The country doctor knew well who Mr. Stokes was, and it was with some curiosity that the New York man awaited his bill.

The store is on the ground floor of a five story tenement and is just around the corner of First avenue from the moving picture theatre against which a similar attack was made Saturday night.

The bomb knocked off the iron shutters on the window, did some damage to the stock inside and broke many windows on the rear of the tenement and on the front of the rear tenement at the corner of First avenue from the second operation. He said that he had charged \$25 for the first operation and \$27 for attendance and that he had charged \$5 for the second operation. This worried him because he felt that he ought to have found that trouble-some gauze at the first try, and if Mr. Stokes did not wish to he need not pay the \$5. Mr. Stokes said he guessed he'd pay.

**Profit Sharing** 

OR upwards of a quarter of a century Steinway & Sons have been pursuing the policy of sharing their profits with the buying public. The gradual increase of their output and resources, coupled with the concentration of their plants and the employment of the most modern methods of manufacturing, have enabled Steinway & Sons to produce and sell their pianos at a lower rate than ever. A new small grand piano (5 ft. 6 in.) in a mahogany case at the extremely low figure of \$750 is the splendid result. Thus the great problem of giving the best article at the most reasonable cost has been successfully solved. Steinway & Sons invite the careful inspection and critical examination by the public of this their latest great achievement in the art of pianoforte building.
